SKILLS

- **Languages**: Python, HTML, CSS, JavaScript
- **Tools**: SQL
- **Soft-Skills:** Adaptability, Communication skills

PROJECTS

Netflix Clone   **(**Aug'23-Aug'23**)**

- I developed a responsive Netflix clone using Html, CSS, showcasing my strong front-end development skills. The project involved designing and structuring the user interface to closely resemble the familiar Netflix layout.

Weather App   **(**Jul'23-Aug'23**)**

- Created a JavaScript-based weather application using API integration; empowered users to effortlessly access real-time weather data including temperature, humidity and wind speed for any desired city globally.

Remainder App   **(**May'23-May'23**)**

- Built an application aimed at seamlessly reminding users to complete specific tasks in a timely manner.

CERTIFICATIONS

- Python Programming – From Basics to Advanced level by Udemy.
- CSS Crash Course For Beginners by Udemy.

POSITIONS OF RESPONSIBILITY

- Successfully collected funds to support elderly citizens through the esteemed Help Age India organization.

DECLARATION

- I declare that all the above- mentioned information is true according to my knowledge.
